September 3, 1996

The Honorable Marc Racicot
Governor of Montana
State Capitol
Helena, MT 59620

Dear Governor Racicot:

Pursuant to Sections 37-1-106, MCA, the Department of Commerce, in cooperation with each professional and occupational licensing board assigned to it, respectfully submits this biennial report.

The report contains an overall description of the Bureau of Professional and Occupational Licensing and the accomplishments of the boards during the last biennium. It includes a breakdown of board expenditures and revenues, legislative and court actions affecting the boards, complaints received and their disposition, and statistical reports of the board activities.

Sincerely,

A handwritten signature in black ink, appearing to read "Jon Noel", written over a horizontal line.

MEMORANDUM

To: Governor Racicot
From: ~~Steve Meloy~~/ Bureau Chief
Professional and Occupational Licensing Bureau
Subject: Biennial Report
Date: September 17, 1996

In 1994, your Task Force to Renew Government had a profound and positive impact on the growth of the Professional and Occupational Licensing Bureau. The following licensing agencies, situated in other state agencies, were recommended to be transferred; Crane Operators, Boiler Inspectors and Blasters. In the spirit of creating a common agency for the licensing of professionals, the idea of transferring Fire Alarm Installers was also proposed.

A single uniform act was also recommended to regulate the administrative proceedings of each professional and occupational licensing board which included improving due process for licensees facing disciplinary action and improved notice of charges and right to hearing and appeals of such charges.

The complaint activity in this biennium has increased dramatically due to an increased awareness by the public of our agency and a desire by the boards to be more proactive in terms of their regulatory powers. New and expanded continuing education and competency programs have lent to the Board's and the Bureau's belief that quality regulation enhances a more healthy business environment which in turn has a positive affect on the states economic development.

We are proud of what we do in this Bureau and continue to be rewarded by the fact that our efforts do, in fact, make this state a better and safer place to live, work and raise our families.

POL AUTHORIZATION:

Title 2, Ch. 15, part 18	Statutes establishing the Department Commerce and boards attached to the Department of Commerce, Professional and Occupational Licensing.
Titles 37, 23, 39, 50	Statutes governing the licensing boards and/or programs under the Bureau of Professional and Occupational Licensing attached to the Department of Commerce.

PROGRAM OBJECTIVES:

The mission of the Professional and Occupational Licensing Bureau is to safeguard the public health, safety and welfare of the citizens of the State of Montana and protect the public from being misled by unscrupulous, incompetent and unauthorized persons. The boards/programs protect the public from unprofessional conduct by licensees and help assure the availability of the highest quality services of those licensed and ensure qualifications for entry into a profession or occupation, monitor practices of those licensed and combat unlicensed practice.

PROGRAM GOALS AND DESCRIPTION:

The Bureau of Professional and Occupational Licensing provides all professional, technical, administrative, legal and clerical services required by the boards/programs, including but not limited to corresponding with the public and licensees; processing applications for licenses; issuing licenses granted by the boards/programs; renewing licenses; requiring and enforcing continuing education credits for licensure where specified by law; levying fines under jurisdiction of appropriate boards/programs; inspecting businesses where appropriate; and taking minutes of board meetings and hearings.

The Bureau arranges for meeting and/or examination facilities for each board/program; administer and grade examinations where required; provides legal staff, investigators and inspectors to investigate legal infractions upon requests from the boards/programs; and initiate disciplinary actions and other legal actions against licensees and unlicensed practitioners. These administrative support functions enable the boards/programs to provide effective and efficient services to the public.

BUREAU DESCRIPTION:

The Bureau is directed by a Bureau Chief. Two administrative officers assist the Bureau Chief. The Bureau consists of five work units: executive directors/secretaries; program specialists and administrative support; investigators/inspectors and an auditor; automation; and legal. The Bureau is authorized to enter into independent contracts as needed (i.e., technical investigations/inspections, compliance auditing and impairment programs).

- A. **Executive Directors/Secretaries** - In accordance with state statutes, the Bureau employs an executive director for the Board of Nursing, Board of Pharmacy and the Board of Outfitters. The Bureau employs executive secretaries for the Board of Medical Examiners and the Board of Realty Regulation.

- B. **Program Specialists/Administrative Support** - The POL support unit is comprised of 23 employees. These employees are program specialists, licensing certification permitting specialists, licensing certification permitting technicians, and licensing certification permitting clerks. This unit handles administrative duties for the thirty-four boards and three programs. The number of boards/programs assigned to a staff member depends on the complexity and workload of the board/program.
- C. **Investigative/Inspection/Audit** - The investigative unit is comprised of three investigators, three compliance specialists, one auditor, and a nurse consultant. The investigators handle various complaints for the boards/programs. Two compliance specialists perform inspections of cosmetology and barber shops; one compliance specialist performs inspections/investigates for electrical and plumbing; one auditor performs audits for the Board of Realty Regulation; and a nurse consultant provides professional assistance to the Board of Nursing.
- D. **Automation** - The automation unit consists of one programmer analyst who assures that the computer system remains in working order; develops programs; prints licenses, labels, and lists; and trains employees on the use of automation equipment.
- E. **Legal** - The legal unit is comprised of four staff attorneys and one paralegal assistant. The legal unit is responsible for providing the Bureau, boards, and programs with legal representation for complaints, adoption of rules, hearings, and court cases. The Board of Medical Examiners also employs one paralegal and an executive secretary who is an attorney.
- F. **Board Members** - There are 198 board members who are appointed by the Governor to serve on the boards. The Bureau issues over 60,000 licenses. By statutes the boards/programs are empowered to protect the health, safety and welfare of the citizens of Montana; adopt rules to conduct business; set procedures; discipline peers; evaluate potential licensees; hold oral interviews; evaluate continuing education programs; hold hearings for disciplinary action and work in conjunction with associations to maintain high standards of excellence for the professions within the state.

The thirty-four boards and three programs attached to the Department of Commerce, Professional and Occupational Licensing are as follows:

BOARDS

Alternative Health Care Board
 Board of Architects
 Board of Athletics
 Board of Barber
 Board of Chiropractors
 Board of Clinical Laboratory Science
 Practitioners
 Board of Cosmetologists
 Board of Dentistry

Board of Funeral Services
 Board of Hearing Aid Dispensers
 Board of Landscape Architects
 Board of Medical Examiners
 Board of Nursing
 Board of Nursing Home Administrators
 Board of Occupational Therapy Practice
 Board of Optometry
 Board of Outfitters

Board of Passenger Tramway Safety
Board of Pharmacy
Board of Physical Therapy Examiners
Board of Plumbers
Board of Private Security Patrol Officers
and Investigators
Board of Professional Engineers &
Professional Land
Surveyors
Board of Psychologists
Board of Public Accountants
Board of Radiologic Technologists

Board of Real Estate Appraisers
Board of Realty Regulation
Board of Respiratory Care Practitioners
Board of Sanitarians
Board of Social Work Examiners and
Professional Counselors
Board of Speech-Language Pathologists and
Audiologists
Board of Veterinary Medicine
State Electrical Board

PROGRAMS

Private Employment Agencies (Repealed Effective April 13, 1995)
Polygraph Examiners (Repealed Effective April 13, 1995)
Public Contractors (Repealed Effective April 26, 1995)

FUNDING:

The Professional and Occupational Licensing Bureau is funded exclusively by Special Revenue Accounts maintained by each board/program through the collection of authorized fees (license, renewal, examination, etc.).

ACCOMPLISHMENTS
FOR
VARIOUS BOARDS

ACCOMPLISHMENTS FOR FISCAL YEARS 1994-95 FOR THE PROFESSIONAL AND OCCUPATIONAL LICENSING BUREAU

BOARD OF ALTERNATIVE HEALTH CARE:

The Board adopted rules implementing legislative changes which resulted from passage of the Board's bill in the 53rd legislative session. The Board drafted, noticed, and adopted rules for unprofessional conduct, infectious waste, and rules defining when physician care of a midwife patient is mandated and when physician consultation is necessary for protection of the public. The Board also adopted rules requiring 14 hours of continuing education for midwives and 15 hours of continuing education for naturopaths. In FY94 & FY95, the number of midwife apprentices licensed by the Board doubled and the number of licensed naturopaths increased by 50%.

BOARD OF ARCHITECTS:

The Board adopted a rule that if a candidate did not successfully complete the entire exam within four consecutive years, the Board in its sole discretion, can provide an exception to the candidate. Such exceptions will be provided only upon proof of medical hardship or extraordinary circumstances.

The Board began implementing the National Council of Architectural Registration Boards (NCARB) Intern Development Program (IDP) on April 15, 1995. The program provides evaluation criteria for candidates completing their internship and applying to the Board to sit for the national examination. IDP defines the intern's experience in a common format for all states and should address some of the issues of reciprocity between states.

The Board began working with NCARB on implementing changes to the National Architectural Registration Examination (A.R.E.). By 1997, the national examination is scheduled to be administered on computers and would no longer be a paper and pencil exam.

BOARD OF ATHLETICS:

The Board implemented a requirement for HIV testing prior to contestants participating in a professional or semi-professional wrestling or boxing match or exhibition in the State of Montana. Professional boxing matches were held in August of 1993 in Kalispell and March of 1995 in Helena. The Board also hosted the spring meeting of the Association of State Boxing Commissions in Bozeman in July 1994.

BOARD OF BARBERS:

The Board reviewed its administrative rules and adopted changes to the practical examination; inspections were conducted of barbershops by inspectors for the Board of Cosmetologists; and the Board participated in conferences of the National Barbers Association to keep abreast of changes in the profession.

BOARD ACCOMPLISHMENTS

BOARD OF CHIROPRACTORS:

The Board supported legislation passed by the 54th Legislature requiring a bachelor's degree for licensure as a chiropractor. The Board began researching whether or not Part IV of the National Board of Chiropractor Examiners, which is a comprehensive practical exam, should be required for licensure in lieu of a state-administered practical exam.

BOARD OF CLINICAL LAB SCIENCE PRACTITIONERS:

The Board was established in 1993 to regulate the profession of clinical laboratory personnel. The Board adopted rules to guide the profession, informed health care facilities about the licensing of laboratory personnel, established continuing education criteria, and issued licenses to qualified applicants.

BOARD OF COSMETOLOGISTS:

The Board adopted rules requiring ventilation in salons because of the exposure to fumes by the general public; conducted training sessions to certify examiners for the testing of applicants; reviewed its practical examinations; conducted inspections of salons and booth rentals; and participated in the National Interstate Council of State Boards of Cosmetology.

BOARD OF DENTISTRY:

Mandatory continuing education requirements were implemented. During the first cycle of continuing education, a dentist must complete 60 hours and a dental hygienist 36 hours by March 1, 1996 in order to be eligible for renewal of their license.

The Board adopted rules defining "prophylaxis," "coronal polishing," and "allowable functions for dental auxiliaries." The Administrative Code Committee reviewed the rules with recommendations that the Board revisit these issues in an attempt to provide workable solutions. The Chairperson appointed a committee with representation from all facets of the profession to identify and share views and concerns on these issues. The committee presented to the Board revisions to rules, which the Board adopted. The Board was then requested to appear before the Administrative Code Committee to discuss the issues brought forth regarding the rules and it was found that the Board had not acted outside their delegated authority and that the rules did outline in a general plan the duties and functions for dental hygienists and dental auxiliaries. The Board continues to review these issues and will consider recommendations made by the Administrative Code Committee regarding language clarification.

The Board reviewed the process used in handling complaints of unsanitary office practices in order to protect the public and provide the best quality of care possible for the profession that it oversees. Using statutes, rules, and departmental policies and procedures, the Board began drafting rules to address the sanitary conditions for dental practices.

A newsletter was distributed in November to help inform both licensees and the public of issues that the Board is working on for the year.

BOARD OF FUNERAL SERVICE:

It was recognized that Board members should not be conducting inspections of funeral homes and crematories, but rather it should be done by an independent contractor. A Request for Proposal was initiated to contract out the inspections.

BOARD OF HEARING AID DISPENSERS:

The Board began discussions as to the need to increase continuing educational requirements for hearing aid dispensers from four to ten hours per year. The Board supported legislation that requires a trainee to be under continuous direct supervision of a licensed hearing aid dispenser for 180 days rather than partial supervision for 12 months.

BOARD OF LANDSCAPE ARCHITECTS:

The Board adjusted its fee schedule commensurate with costs of administering the licensing provisions. To accommodate Montana applicants, the Board administered the L.A.R.E. examination twice a year.

BOARD OF MEDICAL EXAMINERS:

The Board's daily work includes evaluating, granting and denying applications for licensure of the seven professions regulated by the Board, investigating complaints, hearing license discipline proceedings, and monitoring the probation of licensees. In addition, during FY 94 and FY 95, the Board participated in an extensive self-evaluation sponsored by the Federation of State Medical Boards (the Self-Assessment Instrument), modified its licensing forms to comply with the Americans With Disabilities Act, hosted a seminar for physicians and hospital administrators on the subject of the "Disruptive Physician," and prepared and published a position paper on chelation therapy.

During this period, the Board met with representatives of the federal Drug Enforcement Administration on issues of enforcement, a representative from the Oklahoma program which implements electronic monitoring of controlled substance prescriptions, the Board of Dentistry concerning both Boards' utilization and financing of the Montana Professional Assistance Program, the Montana Wyoming Foundation regarding the Foundation's program and services, the Board of Nursing in a cooperative effort to revise the rules pertaining to prescriptive authority for advanced practice registered nurses, the Montana Osteopathic Association, and the representative of a treatment facility for physicians who have committed sexual misconduct. The Board sent delegates to the annual meetings of the Federation of State Medical Boards.

The Board established a committee to research current medical standards for the treatment of chronic pain, and to make recommendations to the Board for a position paper. A member of the Board attended a seminar on chronic pain and appropriate prescribing of controlled substances, presented by the Oregon Foundation of Medical Excellence. The Board also worked with its acupuncture committee to draft and publish proposed rules on sterile needle technique. The rules were adopted as part of the definition of "unprofessional conduct" for licensed acupuncturists. The

BOARD ACCOMPLISHMENTS

Board was consulted by the Montana Acupuncture Association in the Association's legislation to redefine the scope of practice of Montana acupuncturists. The Board's physician assistant committee recommended and the Board published and adopted extensive new rules defining unprofessional conduct for physician assistants-certified, procedures on termination of a utilization plan, criteria for student physician assistants, and other subjects. The Board published and adopted new rules pertaining to the new, composite national examination required for physician licensure.

In compliance with legislation passed by the 54th Legislature, and with the assistance of the Montana Podiatric Association, the Board drafted, published and adopted rules setting the criteria for podiatrist certification to perform ankle surgery, an extension of the scope of practice for Montana podiatrists. The Board supported the Department of Commerce's proposal to the 54th Legislature for a Uniform Professional Licensing and Regulation Procedures Act. The Board was consulted by a Montana hospital on the hospital's proposed legislation to establish a new license category in Montana, that of "restricted" licensure; the legislature passed the proposal. The Board supported legislation to make the physician assistant and nutritionist members of the Board full voting members, as are the Board's two public members; the legislation passed.

BOARD OF NURSING:

National computerized testing for Registered Nurses and Licensed Practical Nurses was implemented which replaced the pencil and paper method. The new testing allows applicants to take the examination throughout the year. A full-time investigator was hired in response to the increased complaints filed with the Board.

The rules for Prescriptive Authority for Advanced Practice Registered Nurses were adopted and implemented following the Legislature granting the Board the authority. The Legislature also passed a law providing for Clinical Nurse Specialists to be included as Advanced Practice Registered Nurses. Advanced Practice Registered Nurses (APRN) are nurses who have had education beyond the RN level of practice and provide primary care. The APRNs include Nurse Practitioners, Nurse Anesthetists, Nurse Midwives and Clinical Nurse Specialists. By July 1, 1995, all APRNs seeking new recognition are required to have a Master's Degree in Nursing. The laws and rules for Advanced Practice Registered Nurses in Montana are very progressive and utilized as a model for other states attempting to provide practice for Advanced Practice Registered Nurses.

The Nurses Assistance Program was implemented and began enrolling participants. The Nurses Assistance Program (NAP) is a program implemented for nurses with chemical, drug and alcohol problems. This provides a way for impaired nurses to receive the help and monitoring needed to receive treatment for their problem and yet be monitored at a level that helps them return to nursing while providing safe care. This program provides for safety of the public and helps impaired nurses return to practice safely.

Canadian nurses who graduated after 1966 from a Canadian province approved nursing program and took the Canadian nursing exam in English were exempted from taking the Commission on Graduates of Foreign Nursing Schools exam. They are allowed to take the US national nursing exam directly without the CGFNS exam. This provides for them to be able to begin nursing practice sooner in Montana and provides easier access for Canadian nurses who want to practice in Montana.

The Board began implementing the Declaratory Ruling process to make decisions regarding practice issues for nurses and to resolve scope of practice issues which enables nurses to have accurate information regarding various nursing practice procedures.

NURSING HOME ADMINISTRATORS:

The Board revised the open-book examination which tests an applicant's knowledge of law and rules governing the licensing of nursing home facilities and administrators; revised application forms for licensure; worked with the Montana Department of Public Health and Human Services in conjunction with their survey process on issues pertaining to the administrator of the licensed facilities; and started researching other state licensing board requirements and national association requirements on the possible implementation of an administrator-in-training program.

BOARD OF OCCUPATIONAL THERAPISTS:

The Board adopted rules which established requirements for the use of superficial and sound/electrical physical agent modalities. These modalities include instruments/apparatuses which are used to stimulate nerves and muscles in treatment.

BOARD OF OPTOMETRY:

The Board adopted rules that do not prohibit a licensed optometrist from associating with other licensed optometrists and/or medical doctors for practicing optometry in the following manners: a professional corporation, a professional limited liability company in which all managers or share holders are licensed to practice optometry or medicine and a trust in which both the trustor and any trustees are licensed to practice optometry or medicine.

BOARD OF OUTFITTERS:

The 54th Legislature effected a moratorium on the issuance of hunting outfitter licenses. The Board of Outfitters began the process of establishing a system for accepting applications to be placed on a waiting list for new licenses that become available.

The 54th Legislative Session authorized the Board to develop rules specifying standards for review and approval of proposed new operations plans involving hunting use or the proposed expansion of net client hunting use under an outfitter's existing operations plan to decide if the proposal will cause an undue conflict with existing hunting use of the area, constituting a threat to the public health, safety, or welfare. The Governor's newly formed Private Lands/Public Wildlife Council is playing an active role with recommendations to the Board on how to mitigate the impacts to Montana quality hunting environment.

Under the Board's complaint processing procedure, all complaints received by the Board are confidential until the screening panel (four of the seven Board members authorized under the new Uniform Licensing Act) votes to issue a notice for proposed Board action. Licensees receiving notices of proposed Board action are notified of the specific allegations against them and notified of their rights under the Montana Administrative Procedure Act.

BOARD ACCOMPLISHMENTS

The Board accomplishes some of its enforcement objectives under a Memorandum of Understanding (MOU) with the Montana Department of Fish, Wildlife & Parks. DFWP incorporates routine outfitter license checks along with their own inspection procedures. The cooperative arrangement between the two agencies has enhanced the Board's effectiveness at targeting illegal activities in both licensed and unlicensed practices.

BOARD OF PASSENGER TRAMWAYS:

In order to ensure that all lifts were in compliance with national standards, the Board conducted mid-season inspections of all the ski areas. A representative of the Board attended the American National Standards Institute conference to provide input on national standards that affect ski area personnel and lifts in Montana. The Board adopted rules which require that the Board's contracted engineer be present at acceptance inspections and providing for procedures for conference calls.

BOARD OF PHARMACY:

After the Board adopted rules pertaining to the regulation of out-of-state mail service pharmacies, the Administrative Code Committee determined that the rules should not have been adopted due to a lack of clear authority on the subject. The 1995 Legislature passed legislation revising the laws relating to out-of-state mail service pharmacies, clearly giving the Board authority to register them and rules were noticed to provide for the registration.

The Board proposed rules referencing the Drug Enforcement Administration rules allowing for the facsimile transmission of prescriptions.

The Board reviewed a draft of rules regulating home infusion facilities. The consensus was that rather than duplicating and possibly complicating the regulation of home infusion facilities, it would be prudent to work with the Department of Health before proceeding with new rules.

BOARD OF PHYSICAL THERAPY EXAMINERS:

The Board, in conjunction with the Montana Chapter of the American Physical Therapy Association, supported legislation passed by the 54th Legislature requiring licensure of physical therapist assistants and implementation of mandatory continuing education. The Board participated in the development of a model practice act by the Federation of State Boards of Physical Therapy. Application forms were updated to comply with, among other things, the American With Disabilities Act.

BOARD OF PLUMBERS:

The Board was transferred from the Building Codes Bureau to the Professional & Occupational Licensing Bureau, both within the Department of Commerce, on July 1, 1994. The transfer was the result of the Department's desire to house all licensing and regulatory boards within the same bureau. A compliance specialist was hired by the Bureau to conduct license checks in the field and to investigate complaints filed with the Board.

BOARD OF PRIVATE SECURITY PATROL OFFICERS AND INVESTIGATORS:

The Board began work with the Montana Law Enforcement Academy to develop a basic examination for applicants that apply for the status of armed personnel; began working with industry and law enforcement agencies to develop a basic training program for security employee applicants and licensees that own the security companies; implemented an examination for security employee applicants and licensees that own the security companies; joined the National Association of Security and Investigator Regulation Federation to keep current with federal laws and industry requirements; and started the process of updating rules regarding approved sidearms with input from law enforcement community.

BOARD OF PROFESSIONAL ENGINEERS & PROFESSIONAL LAND SURVEYORS:

The Board began discussing possible legislative changes for the 54th Legislative Session. Board members attended the regional Western Zone and the Annual meetings of the National Council of Examiners for Engineering and Surveying. In the 54th Session, House Bill 148 and House Bill 149 were passed and signed by the Governor which outlined a title change for engineers-in-training and land surveyors-in-training, provided for a continuing education requirement, grants a waiver of the Fundamentals of Engineering Exam for engineer interns with a Ph.D., and allows for mandatory corporation/partnership/firm registration.

BOARD OF PSYCHOLOGISTS:

During the 54th Legislative Session, the Board actively sought passage of legislation to allow the evaluation of licensure credentials of foreign psychologist applicants, Canadian applicants, and the licensure of psychologists based on 20 years of licensure experience coupled with no disciplinary action against the licensee. The Board began working on the rules to implement these new programs and also proposed and adopted rules to clarify application and supervision procedures.

The Board members and/or staff actively participated in the annual meetings, midwinter meetings, and Task Force on Technology of the Association of State and Provincial Psychology Boards.

The increased workload of the Board was handled by holding 15 conference calls and four board meetings during the biennium. The Examination for Professional Practice in Psychology was conducted in April and October of each year.

BOARD OF PUBLIC ACCOUNTANTS:

The Board's licensees serve the public by providing accounting services. The Board screens candidates' applications for entry to the profession through examination and licensing processes. The Board also oversees the practices of licensees through necessary, regulatory activities including continuing education, the professional monitoring program (positive enforcement) and discipline. The Board currently regulates approximately 2,800 licensees and 500 sole proprietors, partnerships and corporations. Effective May 1994, the Uniform CPA Examination was significantly altered in preparation for a nondisclosed examination format in May 1996. Commensurate with these changes, the Board revised its procedures for administering the examination, including security procedures.

BOARD ACCOMPLISHMENTS

storage of documents, revised orientation packets and implementing a protocol for providing hand-held calculators to candidates. The Board has, over the years, established a pool of qualified consultants to review the financial reports prepared by licensees to ensure compliance with generally accepted accounting and auditing standards. Approximately 100 reports were reviewed for 1995. Of those, 33 did not conform to established professional standards. Appropriate action was taken in these cases, including continuing education mandates, opened investigations, and cases resulting in formal discipline. The program continues to identify problem firms on which the Board can take appropriate action, thereby enforcing compliance. The Board also promulgated changes in the rules for candidates seeking licensure as a public accountant by examination implementing the new structure of the Uniform CPA examination in May 1994.

BOARD OF RADIOLOGIC TECHNOLOGISTS:

The Board started the process of updating the state-administered examination for limited permit holders. A procedure was set forth whereby a student who had completed twelve months of the twenty-four-month program was eligible for a limited permit by passage of the general examination. The Board maintained its contracted inspector services to ensure that those operating X-ray equipment have the requisite qualifications and are properly licensed.

BOARD OF REAL ESTATE APPRAISERS:

The Board underwent a mandatory review of its operations and received a good report by the Appraisal Subcommittee which was established by Title XI of the Financial Institution Reform Recovery and Enforcement Act. The Board published its first newsletter, set up a complaint review committee, signed five new reciprocal agreements with other states, entered into a contract with a new testing agency which lowered the testing fees, and started furnishing the Uniform Standards of Professional Appraisal Practice to all licensed and certified appraisers. The Board adopted rules to clarify "appraisal activity," "substantial contribution," provided for a three-year period for the acceptance of all educational offerings, and established deadlines for the application process to better serve applicants and to avoid confusion.

BOARD OF REALTY REGULATION:

The Board continued sponsoring successful education caravan programs to provide quality, affordable mandatory continuing education to rural licensees. A contract was awarded to a new testing agency for real estate licensure examinations. The Board implemented legislation passed by the 1993 Legislature requiring the licensing of Property Managers who manage rental property on behalf of property owners.

BOARD OF RESPIRATORY CARE PRACTITIONERS:

The Board adopted rules which further defined programs that are approved for continuing education and defined "pulse oximetry" as a diagnostic procedure only to be performed by respiratory care practitioners or other health care practitioners who are trained in the procedure.

BOARD OF SANITARIANS:

The Board adopted rules which allow for the acceptance of a course provided by the Center for Disease Control as equivalent to a course required in microbiology. The Board continues to study the public perception of the scope of the profession and is considering the use of the title "Environmental Health Specialist" in place of "sanitarian."

BOARD OF SOCIAL WORK EXAMINERS AND PROFESSIONAL COUNSELORS:

The Board met five times during the 1995 biennium, holding one meeting in Bozeman and the others in Helena; participated in the national meetings for the American Association of State Social Work Boards and the American Association of State Counseling Boards; and discussed revisions of the rules for both professions. Governor Racicot reappointed three standing members to serve another four-year term.

BOARD OF SPEECH-LANGUAGE PATHOLOGISTS AND AUDIOLOGISTS:

The Board adopted rules to implement the use of a midyear verification to ensure that speech and audiology aides were appropriately supervised throughout their school year. Forms were updated to provide a formula for the supervisor to calculate their percent of indirect and direct supervision of the aides during client contact hours.

BOARD OF VETERINARY MEDICINE:

Four meetings and six conference calls were held by the Board during the biennium. The veterinary practical examination was conducted by the Board in January and June of each year.

The Board proposed legislation in the 54th Legislative Session to address the support personnel issue, licensure by endorsement, the veterinary/patient/client/relationship, and other housekeeping measures. This legislative attempt was unsuccessful.

The Board formed a Screening Committee to review complaints for appropriate action including dismissal, investigation, or a finding of reasonable cause of violation of a statute or rule. The Board also formed an Adjudication Committee to determine sanctions in contested case hearings and settlement agreements.

The Board began work on rules for licensure by endorsement of out-of-state applicants and formed a committee to write a jurisprudence examination.

STATE ELECTRICAL BOARD:

The Board was transferred from the Building Codes Bureau to the Professional & Occupational Licensing Bureau, both within the Department of Commerce, on July 1, 1994. The transfer was the result of the Department's desire to house all licensing and regulatory boards within the same bureau. A compliance specialist was hired by the Bureau to conduct license checks in the field and to investigate complaints filed with the Board. An agreement was entered into with surrounding state boards which allows the acceptance of continuing education courses approved by individual boards as qualifying for credit in the other participating states.

1995 LEGISLATION AFFECTING VARIOUS BOARDS

SUMMARY OF 1995 LEGISLATION AFFECTING THE BOARDS BY CHAPTER NUMBER

CHAPTER

NUMBER DESCRIPTION OF THE BILL

- 3 (House Bill No. 22; Squires) An act allowing state agencies that are subject to the Montana Administrative Procedure Act to use an amended proposal notice or the adoption notice to correct deficiencies in statements of reasonable necessity, in citations of authority for rules, and in citations of sections implemented by rules. Effective 10/1/95. **(POL Bureau)**.
- 4 (House Bill No.23; H. S. Hanson) An act clarifying the fee for providing information in an electronic format. Effective 7/1/95. **(POL Bureau)**.
- 16 (Senate Bill No.7; Klampe) An act clarifying the tolling of applicable statutes of limitations related to medical malpractice claims. Effective 10/1/95. **(Board of Medical Examiners)**.
- 18 (Senate Bill No. 1; Gage) An act generally revising and clarifying the Montana Code Annotated; directing the Code Commissioner to clarify erroneous references contained in material enacted by the 54th Legislature. Effective 2/2/95. **(POL Bureau)**.
- 59 (House Bill No. 26; Wyatt) An act revising the Montana Medical Legal Panel Act; requiring that, upon request, the panel articulate the reasoning and basis for a decision; requiring, at the request of a party, mandatory, nonbinding mediation for an affirmative panel decision. Effective 10/1/95. **(Board of Medical Examiners)**.
- 72 (Senate Bill No. 95; Bishop) An act revising the requirements for obtaining a hearing aid trainee license; establishing the Board's power to initiate complaints, conduct investigations, and suspend or revoke licenses; changing the training period from 12 months to 180 days; reducing the number of trainee license renewals following failure to pass examinations from two to one; increasing the continuing education requirements for license renewal applicants. Effective 10/1/95. **(Board of Hearing Aid Dispensers)**.
- 107 (House Bill No. 147; McGee) An act allowing Engineering Doctorate Degree graduates with 4 years' experience to take the professional engineering examination; adding continuing education or other options to continued practice in engineering or land surveying as criteria for biennial registration renewal; providing for injunctive relief against the unlicensed practice of engineering or land surveying. Effective 10/1/95. **(Board of Professional Engineers and Professional Land Surveyors)**.

- 108 (House Bill No. 148; McGee) An act revising certain provisions of professional engineer and land surveyor licensure; changing the term “engineer-in-training” to an “engineer intern”; changing the term “land surveyor-in-training” to “land surveyor intern”; prohibiting local governments from imposing fees or examination requirements on licensees; establishing semester hour requirements for registrants; removing the duration requirement for professional land surveyor examinations; requiring applicants who fail the examinations twice to wait 1 year before taking a third examination; prohibiting applicants who fail the examinations three times from taking it again except under special circumstances; removing the duration requirement for examinations taken by land surveyors from other states; clarifying requirements pertaining to partnerships and corporations; removing the 6-month deadline for investigation of charges. Effective 10/1/95. **(Board of Professional Engineers and Professional Land Surveyors).**
- 113 (House Bill No. 243; Menahan) An act allowing licensed electricians to renew a lapsed state license without examination within 1 year of the license expiration date upon payment of renewal and delinquency fees. Effective 3/10/95. **(State Electrical Board).**

- 484 (Senate Bill No. 126; Beck) An act revising the provisions under which an agency may charge a fee for providing certain public information; allowing the Department of Revenue to charge a fee for providing information from any property valuation and assessment system data base maintained by the Department; clarifying that the

Department of Revenue may charge federal and state agencies, but not local taxing jurisdictions and certain state agencies, a fee for providing property valuation and assessment system data base information; allowing an agency to charge a fee for providing online computer access to electronic information. Effective 4/14/95. **(POL Bureau)**.

- 496 (Senate Bill No. 324; Bartlett) An act prohibiting state agencies from shifting state program costs to local governments without authorization in state law; and requiring the opportunity for a hearing pursuant to the Montana Administrative Procedure Act. Effective 10/1/95. **(POL Bureau)**
- 500 (Senate Bill No. 354; Forrester) An act providing for contractor registration; providing for fees to fund the administration and enforcement of the registration; providing that a percentage of the fees be used for an education program; setting requirements for registration; requiring surety bonds; approving exemptions; providing restrictions on advertising; providing for administrative hearings; providing for violations and penalties; granting rulemaking authority to the Department of Labor and Industry; requiring independent contractors to obtain an exemption. Effective 10/1/95. **(Public Contractors)**.
- 508 (House Bill No. 460; Quilici) An act establishing a Blue-Ribbon Telecommunications Task Force to examine Montana's telecommunications infrastructure and to make recommendations to the Governor and the Legislature to ensure the implementation of policies, practices, and statutes regarding access to advanced telecommunications services; establishing a state special revenue account; providing a general fund appropriation; authorizing additional spending of nongeneral fund revenue. Effective 7/1/95. **(POL Bureau)**.
- 514 (House Bill No. 68; Schwinden) An act generally revising industrial safety laws; transferring the licensing of construction blasters, boiler and steam engine operators, and crane and hoist operators to the Department of Commerce from the Department of Labor and Industry; authorizing the Department of Commerce to establish appropriate training courses; clarifying boiler engineer experience requirements; establishing a new class of license for seasonal agricultural purposes; transferring licensure functions of the fire prevention and investigation program from the Department of Justice to the Department of Commerce; transferring boiler safety and inspections from the Department of Labor and Industry to the Department of Commerce; requiring safety compliance language to be expressly stated in the contract between a contractor and a governmental entity; imposing a fee for all boiler inspections; eliminating hearing or complaint requirements prior to the Department ordering workplace safety improvements. Effective 7/1/95. **(POL Bureau)**.
- 515 (House Bill No. 89; Peck) An act generally revising the vital statistics laws to standardize procedures and to conform to national standards; clarifying the information available from the system of vital statistic; revising birth registration requirements; revising procedures and criteria for issuing a delayed or altered birth certificate; revising the judicial procedure for establishing the facts of birth; revising

the laws governing certificates of adoption and annulment of adoption; providing for certificates of foreign birth; revising the laws for certificates of birth following adoption, legitimation, or establishment of paternity; revising standards for preserving vital records; revising the content vital records. Effective 1/1/96. **(Alternative Health Care Board).**

- 525 (House Bill No. 504; Cobb) An act requiring the Department of Social and Rehabilitation services and the Department of Labor and Industry to adopt rules governing the use of a personal assistant by a person with a disability; providing that the actions of a personal assistant are not subject to regulation by the Board of Nursing; and providing definitions. Effective 10/1/95. **(Board of Nursing).**
- 536 (Senate Bill No. 226; Keating) An act revising counseling laws; revising the definition of professional counseling; requiring licensure to engage in the practice of professional counseling or for a person to represent that the person is a professional counselor; authorizing counseling by certain individuals acting within the scope of their professional practice. Effective 1/1/96. **(Board of Social Workers and Professional Counselors).**
- 546 (Senate Bill No. 345; Swysgood) An act implementing the recommendations of the Governor's Task Force to renew Montana government by creating a new Department of Public Health and Human Services; transferring all programs currently administered by the Department of Social and Rehabilitation Services to the new Department; transferring all programs currently administered by the Department of Family Services to the new department, with the exception of juvenile corrections programs; transferring juvenile corrections programs to the Department of Corrections; transferring the mental health programs, substance abuse programs, and developmental disabilities programs and associated programs and support staff currently administered by the Department of Corrections and Human Services to the new Department; transferring all health services programs currently administered by the Department of Health and Environmental Sciences to the new Department, except for laboratory services; abolishing the existing Department of Social and Rehabilitation Services and the existing Department of Family Services; contingently abolishing the Board of Health and Environmental Sciences and transferring its duties to the new Department; changing the name of the Board of Social and Rehabilitation Appeals to the Board of Public Assistance; changing the name of the Department of Corrections and Human Services to the Department of Corrections; changing the name of the Board of Pardons to the Board of Pardons and Parole; changing the name of the Women's Correctional Center to the Women's Correctional System. Effective 7/1/95. **(Various POL Boards).**
- 556 (House Bill No. 576; Grady) An act revising the types of funds subject to appropriation; generally revising the law concerning budget amendments; requiring certain fees and charges to be commensurate with costs; requiring and audit and budget analysis of certain fund types. Effective 7/1/96. **(POL Bureau).**

- 558 (House Bill No. 601; Sommerville) An act repealing the license requirement for public contractors. Effective 4/26/95. **(Public Contractors).**
- 562 (Senate Bill No. 136; Baer) An act generally revising laws concerning ethics; changing ethical guidelines into requirements; requiring legislators to disclose interests raising the appearance of impropriety and to vote on matters as provided in legislative rules; approving requirements for a public employee, public officer, or legislator to receive more than one public salary for overlapping hours of employment; prohibiting public officers and public employees from using public time, equipment, facilities, supplies, personnel, or funds for any campaign activity; restricting employment by current and former public officials and employees; providing for education and training on ethical matters; providing enforcement provisions for ethics violations; creating an ethics commission to provide review of ethics decisions in cases involving state officers and state employees. Effective 7/1/95. **(POL Bureau).**
- 565 (Senate Bill No. 224; Christiaens) An act defining the relationships available between real estate brokers or salespersons and buyers or sellers in real estate transactions; establishing the obligations owed by real estate brokers or salespersons to buyers or sellers in real estate transactions; requiring real estate brokers and salespersons to provide buyers and sellers with agency disclosure statements regarding agency relationships between real estate brokers or salespersons and buyers or sellers in a real estate transaction. Effective 10/1/95. **(Board of Realty Regulation).**
- 575 (House Bill No. 543; Wagner) An act revising the requirements for posting of security when an injunction or restraining order is sought; requiring security in an amount not exceeding \$50,000 to cover lost wages, salaries, and benefits when an industrial operation or activity is enjoined or restrained. Effective 10/1/95. **(POL Bureau).**
- 579 (House Bill No. 591; Wiseman) An act providing for a statewide trauma care system; creating an emergency medical services advisory council and a trauma care committee; requiring the Department of Health and Environmental Sciences to create and administer the system; requiring the Department to adopt rules; providing for designation of trauma care facilities; providing for regional trauma care advisory committees; providing for confidentiality of trauma data and quality improvement records. Effective 5/1/95. **(Board of Medical Examiners).**
- 593 (House Bill No. 2; Zook) An act appropriating money to various state agencies for the biennium ending June 30, 1997. Effective 7/1/95. **(POL Bureau).**

SENATE JOINT RESOLUTION 21: (Klampe) A Joint Resolution of the Senate and the House of Representatives of the State of Montana requesting and interim study of the organization and composition of the professional and occupational licensing boards and of methods to resolve issues concerning licensed professions and occupations; and requiring a report of the findings and recommendations to the 55th Legislature.

SENATE RESOLUTION 2: (Harding) A Resolution of the Senate of the 54th Legislature of the State of Montana concurring in, confirming, and consenting to the nominations and appointments made by the Governor and submitted by written communication Dated December 29, 1994, to the Senate Pursuant to Section 5-5-302, MCA.

SENATE RESOLUTION 4: (Harding) A Resolution of the Senate of the State of Montana concurring in, confirming, and consenting to the nominations of appointments made by the Governor and submitted by written communication dated February 9, 1995, to the Senate.

SENATE RESOLUTION 7: (Harding) A Resolution of the Senate of the State of Montana concurring in, confirming, and consenting to the nominations of appointments made by the Governor and submitted by written communication dated March 17, 1995, to the Senate.

HOUSE JOINT RESOLUTION 5: (Cobb) A Joint Resolution of the Senate and the House of Representatives of the State of Montana requesting the Governor to ask each executive branch agency that has adopted administrative rules, whether or not the Montana Administrative Procedure Act applies to the agency, to review the agency's rules and delete unnecessary provisions by January 1, 1996, with a view to decreasing the number and pages of the agency's rules by a minimum of 5 percent, with a goal of 10 percent.
